

## **Announcement:**

**Blood Drive for Kathryn McGarry will occur on Saturday, December 27, 2014 at 9:00am to 2:00pm. Kathryn is a Town of Clinton young woman, who is fighting for her life. Kathryn has a rare disorder called KTS Klippel-Trenaunay Syndrome.**

Kathryn McGarry needs your help! (Kathryn's Prom) Kathryn McGarry, a Town of Clinton young woman, is fighting for her life. Kathryn has a rare disorder called KTS Klippel-Trenaunay Syndrome. She has suffered with this congenital disease all her life, and now at the age of 26, Kathryn is in Boston Children's hospital and needs your help. The type of blood Kathryn needs is so specialize that it is difficult to acquire. The Blood pool from which Red Cross can cross match the blood type that carries a special agent Kathryn needs is dwindling. Kathryn is losing blood everyday, and there is very little blood with her type available for her. A Red Cross Blood Drive has been set up in Kathryn's name for Saturday, December 27th from 9am to 2pm at the former Hyde Park Elementary School, Rt. 9 Hyde Park (next to Regina Coeli). You may walk-in or call Patty Hohmann for an appt at 845.849.5066. It is so important that we increase the supply of blood so that the chances of getting a match for Kathryn are increased. Please consider giving the gift of life so that Kathryn and many others have a chance to keep living. This is a busy season for everyone, but please take a few minutes of your time and think about helping Kathryn and others who are fighting for their lives. Please stop at the Hyde Park blood drive on Dec. 27th to donate. Thank you.
